Francis Nwagwu, a Candidate for Edmonton District Board Election
I am seeking the opportunity to serve on the Edmonton District Board to advocate for the interests of our members and to contribute meaningfully to the strategic direction of HSAA. My decision to run is driven by my passion for supporting healthcare professionals, ensuring fair representation, and strengthening our collective voice within Alberta's healthcare system.

With over a decade of experience in healthcare, specifically Medical Laboratory Technology profession, I understand the challenges frontline workers face daily. My background includes teaching, diagnostic laboratory work, project management, Unionism and active involvement in quality management and biosafety, all of which have equipped me with valuable leadership and decision-making skills. Currently, I work at Canadian Blood Services as a Donor Care Associate and with Alberta Precision Laboratories as laboratory Assistant, where I have developed a deeper appreciation for the importance of collaboration and effective communication in healthcare settings, respectively.

As your board representative, I am committed to:

- Advocacy: I will be a strong voice for all members, ensuring your concerns are heard and addressed. I believe in transparent communication and will keep you informed and engaged.
- Strategic Leadership: I will work collaboratively with the board to guide HSAA's strategic initiatives, ensuring they align with our mission and reflect the evolving needs of our members.
- Accountability: I am dedicated to responsible stewardship of our resources, upholding the highest standards of integrity and transparency in all decision-making processes.
- Member Engagement: Your input is vital. I will prioritize member outreach to understand your priorities and represent them effectively at the board level.

I am running for this position because I believe in the power of collective action and the importance of having leaders who genuinely care about the well-being of members. I am committed to fostering a supportive and inclusive environment where every member feels valued and represented.

I would be honored to have your support. Together, we can strengthen HSAA's role in advocating for our members and improving Alberta's healthcare landscape.
