14. CONSTITUTION

HSAW WILL:

Amend Article 25 – Local Unit as presented:

25.01 A Local Unit shall be composed of ten (10) members or more.

25.042 Members are by default assigned to a Local Unit. However, a group of HSAW members may define itself as a “Local Unit” of HSAW, with consideration to the following principles:

- (a) Members covered under the same bargaining certificate existing at the same site are encouraged to amalgamate into one Local Unit.
- (b) Members covered by separate bargaining certificates existing at the same site may opt to amalgamate.
- (c) Members covered by the same bargaining certificate with small numbers at multiple sites may wish to act as one Local Unit.

BECAUSE (RATIONALE):

To ensure that there is a sufficient number of members within a Local Unit to achieve the directives set out in Policy: *Purpose of a Local Unit* and to align with the goals for Local Units in the Strategic Plan.

15. OCCUPATIONAL HEALTH & SAFETY

HSAA WILL:

Work with affiliates to advocate on behalf of members to the Alberta government to include mental occupational injury in presumptive legislation for all front-line workers to specifically include:

- **All scientifically recognized types of mental injury, including, but not limited to PTSD.**
- **Workplace stressors that cause both chronic psychological injuries and acute mental injuries.**
- **Both traumatic and nontraumatic workplace stress triggers**

BECAUSE (RATIONALE):

Evidence shows that front-line workers are screening positive for high rates of clinically significant symptoms consistent with one or more mental disorders like post-traumatic stress disorder, major depressive disorder, generalized anxiety disorder, social anxiety disorder, panic disorder, mood disorder and substance abuse.

AND BECAUSE (RATIONALE):

Some front-line professions are almost 4.5 times more likely than the general population to screen positive for mental injury.

AND BECAUSE (RATIONALE):

There are no national standards on presumptive laws, creating inconsistencies in presumptive coverage across the country with some provinces resulted in unequal treatment of workers, and in some workers' rights to occupational health and safety are not protected at all.

16. POLITICAL ACTION

HSAA WILL:

Work with affiliate unions to develop and share collective agreement language that helps address potential abuses of AI.

AND HSAA WILL:

Lobby the provincial government for restrictions on the use of AI in public services at the provincial level.

AND HSAA WILL:

Call on the National Union of Public and General Employees (NUPGE) to lobby the federal government to adopt restrictions on the use of AI that are strong enough to protect human rights, privacy, and labour rights.

BECAUSE (RATIONALE):

How AI is used and what controls are put in place will determine whether working people benefit from it.

AND BECAUSE (RATIONALE):

No provincial legislation regulating the use of AI has been introduced.

AND BECAUSE (RATIONALE):

The risks to human rights, privacy and labour rights if restrictions are not put in place haven't received enough attention from governments.

AND BECAUSE (RATIONALE):

Governments need to be putting restrictions in place to prevent violations of human rights, privacy, and labour rights. These restrictions need to apply to both the public and private sectors.

AND BECAUSE (RATIONALE):

Intelligence and Data Act will not protect human rights, privacy, and labour rights.

17. HEALTH SERVICES & COMMUNITY SOCIAL SERVICES

HSAW WILL:

Work with partner Unions and allies to pressure the government for stable funding for true *systems* of care that includes health care, home care, addictions care, elder care, childcare, social services, and supports for people with disabilities.

AND HSAW WILL:

Advocate to end the unequal gender distribution of paid and unpaid care.

AND HSAW WILL:

Advocate for fair compensation and decent working conditions for care workers.

AND HSAW WILL:

Educate workers, public and governments on the value of care to the well-being of women, families, communities and the economy.

AND HSAW WILL:

Continue raising the profile of care workers, the work they do and the conditions they face.

BECAUSE (RATIONALE): HSAW members work in the system of care and deserve good working conditions and fair wages.

AND BECAUSE (RATIONALE): Everyone needs care at some point; it is central to social, economic and environmental well-being.

AND BECAUSE (RATIONALE): Women disproportionately provide unpaid caregiving which can affect their own well-being, and participation in the work force.

AND BECAUSE (RATIONALE): Workers in the care economy face diverse challenges, but common are low wages, poor working conditions, lack of benefits, precarious employment, and high turnover. Staffing shortages that predated the pandemic are worsening due to overwork and burnout. The dramatic increase in cost of living has many of these low-paid workers struggling even harder to meet their basic needs such as housing and food.

AND BECAUSE (RATIONALE): Care is a human right. We need to ensure care work and workers are properly valued through a publicly funded and managed system with a unionized workforce.

18. HEALTH HUMAN RESOURCES

HSAA WILL:

Call on the provincial government to significantly increase funding for health-care worker retention programs, including creating an immediate emergency fund for this purpose.

AND HSAA WILL:

Demand enhanced mental health and safety support legislation for all health-care workers in Alberta.

AND HSAA WILL:

Call on the Alberta Federation of Labour to work with the Canadian Labour Congress and provincial and national affiliated Unions to:

- **Advocate for a Pan-Canadian Health Human Resources Strategy to address workforce shortages in the public health-care system.**
- **Call for the creation of a Public Agency for Mobile Health Workers Staffing to regulate and stabilize the public health-care sector.**
- **Advocate for the inclusion of Alberta Unions and health agencies in striking a Public Health Care Sectoral Table tasked with coordinating the Pan-Canadian Health Human Resources Strategy.**

BECAUSE (RATIONALE): The health-care staffing crisis is severely impacting all HSAA members across our province.

AND BECAUSE (RATIONALE): Alberta cannot solve the staffing crisis on our own, the Canadian public health-care system is in a state of crisis. Chronic underfunding, a lack of coordinated planning and a lack of attention to the shortage of public health-care workers have undermined the public system.

AND BECAUSE (RATIONALE): The shortage of health-care workers is impeding quality of care and putting lives at risk.

AND BECAUSE (RATIONALE): Strong action is needed to retain public health-care workers and to provide support for further recruitment and training of health-care workers to address the shortages. The strategy must include standardized data collection to allow for effective planning and policymaking, as well as enhanced mental health and safety support initiatives to protect the well-being of health care workers.

AND BECAUSE (RATIONALE): Without dramatically increased retention and recruitment efforts, we will see more public health-care workers leaving.

AND BECAUSE (RATIONALE): The establishment of a Public Agency for Mobile Health Workers Staffing is also critical to regulating and stabilizing the workforce, ensuring that all Canadians have access to the care they need, regardless of where they live. This public agency would remove the need for private health staffing agencies, which undermine public health care delivery.

AND BECAUSE (RATIONALE): The crisis in health care staffing is not just a problem for health workers: it is a national emergency that threatens the health and well-being of every person in Canada. Provinces must work with and support the federal government in addressing the health human resources crisis.

Lobby all levels of government to increase funding for women's health programs and research.

AND HSAA WILL:

Work with other labour Unions and partner groups to produce sample contract language and/or policy language that would allow women to take time off without stigma or financial penalty for issues related to hormonal health such as menstrual pain.

AND HSAA WILL:

Work with other labour Unions and partner groups on Women's Issues to raise awareness of the disparities that exist in the health-care system regarding women's health.

AND HSAA WILL:

Call on the Alberta Federation of Labour to work with the Canadian Labour Congress and affiliates and allies to pressure all levels of government to address the issue.

AND HSAA WILL:

Work with Provincial and National labour organizations and partner groups to advocate for the inclusion of provincial unions and health agencies in striking a Public Health Care Sectoral Table tasked with coordinating the Pan-Canadian Health Human Resources Strategy.

BECAUSE (RATIONALE): Nearly 80% of the membership of our Union are women.

AND BECAUSE (RATIONALE): Women and gender-diverse people are stereotyped as exaggerating their pain for attention and are often disregarded when talking about their symptoms. This results in women not seeking medical attention, living in severe pain, having symptoms that affect their ability to work, impact their quality of life, and can put their lives at risk.

AND BECAUSE (RATIONALE): Women's health research receives less than 7% of medical research funding in Canada according to the Women's Health Collective Canada (WHCC). It has only recently been discovered that heart disease, one of the most prevalent conditions that harms and kills women, presents differently in women, often with more complex and undetectable symptoms. Research must be done to determine how symptoms manifest differently for women than men.

AND BECAUSE (RATIONALE): Women have been excluded from most clinical trials as scientists believed that female hormones would distort results impacting knowledge and risks associated with drug effects in women.

AND BECAUSE (RATIONALE): Conditions such as painful periods, perimenopause, and menopause are not adequately addressed. Pain and premenstrual syndrome are often dismissed and severe conditions such as endometriosis, which can lead to infertility, go undiagnosed or untreated. The Menopause Foundation of Canada reports that 1 in 4 women suffer severe menopausal symptoms and 10% stop working.

HSAA WILL:

Continue to advocate for a universally accessible, publicly funded and delivered, not-for-profit, inclusive, and high-quality childcare system.

AND HSAA WILL:

Work with allies to monitor the implementation of the early learning and childcare agreements in Canada and Alberta with particular attention to the need to expand public and not-for-profit childcare.

AND HSAA WILL:

Continue working with provincial and national allies to advance our shared goals for a universal childcare system and call on all levels of Government to support it.

BECAUSE (RATIONALE): Having access to high-quality early learning and childcare plays a critical role in children's development, supports families and contributes positively to our economy and society.

AND BECAUSE (RATIONALE): HSAA has long advocated for a national childcare system that is universally accessible, publicly funded and delivered, not-for-profit, inclusive, and high quality.

AND BECAUSE (RATIONALE): Even with recent progress on a Canada-wide early learning and childcare system, gaps remain. As childcare fees have decreased under the new federal-provincial- territorial agreements, the increase in the number of childcare spaces has not kept pace with demand meaning many families still can't access affordable childcare.

AND BECAUSE (RATIONALE): For-profit providers are waiting in the wings to "solve" the problems in the Canada-wide system with Alberta pushing the federal government to loosen restrictions preventing public funding from going to the for-profit childcare sector.

21. POLITICAL ACTION

HSAW WILL:

Work with other labour Unions and partner groups to produce sample contract language and/or policy language on workplace supports, training and safety policies for HSAW bargaining.

AND HSAW WILL:

Advocate the government to mandate intimate partner violence and domestic violence training in all workplaces in Alberta.

AND HSAW WILL:

Encourage employers to coordinate training on intimate partner and domestic violence at work.

AND HSAW WILL:

Lobby the provincial government to ensure that intimate partner violence and domestic violence leave is available to all Albertans for a minimum of 5 days.

AND HSAW WILL:

Lobby governments to increase funding to community services, transitional housing and provide the affordable housing to those rebuilding their and their children's lives after escaping intimate partner or domestic violence.

BECAUSE (RATIONALE): Intimate partner violence and domestic violence is a workplace issue that affects a significant number of union and non-unionized workers. It can lead to workplace safety issues, absenteeism, among many other far-reaching impacts to the worker and their co-workers, and that makes it a union concern.

AND BECAUSE (RATIONALE): Education, awareness and proactive measures in the workplace are essential to curbing the rate of intimate partner and domestic violence and provide knowledge on how to respond and support someone facing it.

AND BECAUSE (RATIONALE): Anyone can be a victim of intimate partner violence or domestic violence, but women, girls and gender-diverse people are more likely to be affected, as are gender-diverse people. It is disproportionately higher for women who are racialized, Indigenous, living with disabilities, transgender, immigrants, and refugees. Furthermore, marginalized women and gender-diverse people face barriers in accessing supports.

AND BECAUSE (RATIONALE): The COVID -19 pandemic caused a pandemic within a pandemic with an alarming increase in intimate partner and domestic violence causing an increase demand on shelters and community supports. In addition, rapid inflation and rise of the cost of living has placed additional stress on households, as people struggle to cover basic needs such as food and housing. These increased pressures can lead to higher rates of violence and abuse.

AND BECAUSE (RATIONALE):

There are numerous policy responses that are needed. Access to affordable housing, adequately resourced shelters and transition housing, and community-based supports are crucial to those fleeing violence—for both their immediate safety and long-term healing.

HSAA WILL:

AND HSAA WILL:

Encourage locals to facilitate young worker participation in H S A A events.

AND HSAA WILL:

AND HSAA WILL:

Support NUPGE to submit a resolution to the Canadian Labour Congress to raise the age limit for the Young Workers' Advisory Committee to 35 and under.

BECAUSE (RATIONALE): As of March 2025, approximately 6,100 active members of HSAA are young workers.

AND BECAUSE (RATIONALE): Engaging young workers is a challenge for many unions. Many young workers are focused on establishing their careers and have many competing life priorities that leave them with less time to get involved.

AND BECAUSE (RATIONALE): Many young workers work two or more jobs to earn a living wage (usually without benefits) which eats into the amount of personal time they have.

AND BECAUSE (RATIONALE): Union orientation time is restricted by the employers and are often held soon after someone is hired and being bombarded with information about their new roles. This negatively affects HSAAs ability to onboard, educate and engage new members reducing the likelihood that young workers will get involved.

AND BECAUSE (RATIONALE): There is often a perception that young workers aren't "ready" or don't have enough to contribute to unions, or that they don't care. It is important to counter this—young workers need to be valued and feel seen for them to participate in our Union.

23. HEALTH HUMAN RESOURCES

HSAA WILL:

Work to increase awareness of the damage that privatization does to public services; the financial cost, access and how privatizing health-care services impacts health-care workers.

AND HSAA WILL:

Build on the approach taken to respond to the health human resources crisis by working with allies to develop public solutions to problems facing public services, particularly health care, and to lobby for their adoption by governments.

AND HSAA WILL:

Support efforts to reduce the secrecy surrounding privatization including stronger access to information laws, stronger reporting requirements for corporations lobbying governments, and government requirements for corporations to report who really controls them in a publicly accessible registry.

BECAUSE (RATIONALE): Privatization of healthcare has been a threat to both the quality of the services the public receives and the working conditions for the people who deliver them.

AND BECAUSE (RATIONALE): We see the impact of underfunding in our public health-care system. Problems like shortages of health-care professionals and gaps in primary care are being used by the privatization industry to undermine support for public health care. The privatization industry is claiming that privatization will fix the problems with health care, but it is making it worse.

AND BECAUSE (RATIONALE): People are being forced to pay out of pocket for services that should be covered by in the public health-care system. Those who can't afford to pay, or who can't find private alternatives, are waiting longer for treatment in the public system, or going without the care they need.

AND BECAUSE (RATIONALE): Because of the problems underfunding has created in the health care and other sectors, protecting public services requires more than just opposing privatization. To successfully fight privatization, we need to be putting forward public solutions to the problems caused by starving public services of resources, starting with adequate funding.

AND BECAUSE (RATIONALE): With the secrecy surrounding privatization, the public accountability that is essential for democratic control of public services is undermined.

AND HSAA WILL:

Use the social determinants of health to advocate for initiatives that promote the development of sustainable and equitable communities to reduce health inequalities and mitigate the impacts of climate change on the health-care system.

AND HSAA WILL:

Continue to work with allies through the Alberta Health Professionals for the Environment, Climate Action Network Canada, the Green Economy Network, the Canadian Labour Congress to advocate for climate justice.

BECAUSE (RATIONALE): Climate change will continue to impact all facets of health and is a threat to public health. It affects the health of Albertans, raises the cost of health care and negatively impacts HSAA members and is impacting all of us in our communities and in our workplaces.

AND BECAUSE (RATIONALE): Climate change does not impact everyone equally. Some people are more vulnerable because of their economic situations increasing exposure and ability to adapt. Marginalized communities, particularly Indigenous peoples, are disproportionately experiencing the negative impacts of climate change.

AND BECAUSE (RATIONALE): Climate justice means tackling climate change, inequality and injustice together. We need solutions that not only transition us to a greener, more sustainable world, but that also promote equity and justice.

AND BECAUSE (RATIONALE): Governments must play a leading role. The public sector has an important role to play in facilitating climate action. Strong, robust public services are also critical to adapting to the impacts of climate change, from fighting fires to health care to providing education and training.

39. FINANCE**HSAW WILL:**

Restore the annual Local Unit funding for units with 10 or fewer members to a minimum of \$750.

BECAUSE (RATIONALE):

Increasing member engagement, at the local level, has been a movement/ change in strategy, our union is working towards and has continued to focus on,

AND BECAUSE (RATIONALE):

This will allow member engagement to continue & even develop if it can keep up with inflation and rising costs,

AND BECAUSE (RATIONALE):

Rural and remote local units will utilize these funds for local engagement, education & learning opportunities when attending more centralized union events are not feasible,

AND BECAUSE (RATIONALE):

Restoring funding demonstrates that HSAW values all members equally—regardless of worksite size or location.

AND BECAUSE (RATIONALE):

As a Local Unit operating in a rural area, we face significant barriers that our urban counterparts may not. Many of our members cannot attend Convention, LRC, or other union events—not because of lack of interest, but because our site is chronically short-staffed and it's nearly impossible to take time off. This isolation makes local engagement even more important.

The reduction in Local Unit funding from \$750 to \$500—while modest on paper—is a 33% cut that drastically limits our ability to engage members, particularly in the face of rising costs. Hosting AGMMs, wellness lunches, or even informal appreciation events becomes a financial strain under the current allocation.

This funding cut disproportionately impacts smaller and rural units, at a time when we need every member to feel included and engaged—especially during a tough bargaining round.

Restoring this funding is not just a matter of correcting a financial decision—it is a meaningful opportunity to act on our union's values of solidarity, equity, and respect. It sends a clear message that every member, no matter how remote their worksite or how small their unit, is equally valued and supported. In this critical moment, we ask Convention delegates to support this resolution and demonstrate that HSAW stands united—that no member is left behind because of where they live or the size of their Local Unit.

50. LABOUR RELATIONS ADVOCACY

HSAA WILL:

Prioritize advocating for members to have portability of all entitlements across the newly formed health care agencies and entities under Alberta Health (including already established and any forthcoming Health Agencies/entities coming from the dissolution of AHS)

The prioritized aspects of portability will include: internal applicant status across public health agencies & entities; transferring of seniority date, rate of pay, and years of service which apply to long service vacation accruals; transferring unused vacation, sick leave banks, and vacation accrual entitlement; the ability to take temporary positions in other agencies and have your permanent position or FTE held for your return; the ability to move to a new position and be able to return to your original position within the current allotted time period in our agreement due to lack of fit; and importantly have layoff and recall language to apply to positions across agencies.

BECAUSE (RATIONALE):

HSAA members work across all of these agencies, with many disciplines being split between agencies. Committing to careers as public health services providers should afford us the opportunity to grow our careers within public health agencies, to develop our skills across populations and sectors, and to bring our expertise to different areas practice, without losing the entitlements we accrue in our current collective agreement as we are providing longstanding service to our communities. We deserve the ability to move and grow in our careers without losing our entitlements within our public health care system.

BECAUSE (RATIONALE):

Currently AHS/UNA's collective agreement gives hiring preference to employees covered by their agreement over external candidates who do not work for AHS or one of the Public Health Agencies/entities. HSAA members deserve the same!

BECAUSE (RATIONALE):

HSAA members deserve the job security that comes along with their committed service. In the future whole disciplines may be laid off from certain agencies with no potential ability to move into their discipline roles within other health care agencies.

HSAA WILL:

Prioritize keeping our whole bargaining group together for collective bargaining of our future agreements (including Recovery Alberta, Alberta Health Services, Acute Care Alberta, Primary Care Alberta, Continuing Care Alberta, Alberta Shared Services entity, and other announced new Public Health Agencies/entities coming from the dissolution of AHS).

BECAUSE (RATIONALE):

We are stronger working in solidarity as a larger collective bargaining group.

BECAUSE (RATIONALE):

In the future, the government could attempt to use HSAA members within one public health agency to cover or do the work of the same disciplines within another agreement who are attempting to strike or take job action (even if it is considered illegal, they may try anyways). This would ultimately greatly reduce our bargaining power for future agreements.

BECAUSE (RATIONALE):

Having different agreements be made with different employers could result in different levels of pay and benefits, ultimately resulting in many of us attempting to move positions to be in agencies with the highest pay and benefits, causing chaos and competition between agencies, resulting in poorer health care services for Albertans as experts leave their positions for higher pay elsewhere, and repeated career changes and instability as opposed to being able to focus on providing quality health care services within our areas of expertise and personal passion. This is particularly a concern with the unclear future of portability between agencies. Ideally, we can bargain the best agreements as a strong united front and obtain fair pay and benefits for all.
